The Burnt Mountain area originates from the summit of Burnt Mountain and features much of the steepest ski terrain in the area. It is the second highest peak in the resort and is one of the few areas on the mountain that remains open for glade skiing. The Burnt Mountain area is accessed via the Burnt Mountain hiking trail, which begins at the terminus of the Golden Road.

The Eastern Territory represents the far eastern region of the resort. It is characterized by its rolling terrain and provides access to a variety of glades and trails. The area is known for its challenging terrain and offers a mix of easy to expert trails, including some of the most difficult trails in the resort.
